Experience

AuraUI

May 2024 – Present (Remote)

Co-Creator & Frontend Developer

- Developed the project using **Nextra**, a hybrid static site generation framework, leveraging Next.js's hybrid rendering capabilities with Markdown content. Integrated pluggable themes and built-in components, along with SEO optimizations for enhanced discoverability.
- Utilized **Next.js**, **Shadcn UI**, and **Tailwind CSS** to create an intuitive and responsive front-end interface, ensuring seamless user experiences across devices. Gained a deep understanding of MDX (Markdown with React) to handle dynamic content efficiently.
- Integrated **GitHub APIs** to fetch and render inbuilt design components directly from the repository, automating UI updates and version control for real-time collaboration.
- Designed and implemented **reusable components** such as footers, headers, and various site sections, optimizing for both scalability and maintainability across projects.
- Employed **Framer Motion** to create smooth and visually appealing animations for components, enhancing overall user engagement.
- Conducted thorough research on modern UI/UX trends to craft sleek and modern designs, continuously improving user interfaces by taking inspiration from industry-leading websites.
- Led the **version control** process, managing tasks, reviewing pull requests, and ensuring code quality across the team using Git and GitHub, while fostering an open-source environment for external contributions.

Kirak.ai

Dec 2023 – Mar 2024 (Ontario, Canada · Remote)

Frontend Developer Intern

- **Developed visually appealing and responsive UI components**, enhancing the platform's user interface.
- **Implemented dynamic site routing using Next.js**, improving navigation and page load efficiency.
- Integrated user authentication features, including **Google Sign-In**, to secure and simplify the login process.
- Contributed to the front-end development of an **interactive quiz section**, improving user engagement with dynamic content.
- **Fetched and displayed blog content from WordPress API**, ensuring seamless integration with the platform's design.
- **Integrated REST APIs** to efficiently fetch and manage dynamic data across various sections of the platform, optimizing communication between the front-end and back-end services.
- Created **reusable components** such as headers, footers, and sidebars to optimize the development workflow.
- Collaborated with cross-functional teams on **task assignments, code reviews**, and feature development, ensuring smooth project delivery.

Asva Ventures

Jul 2023 (Tamilnadu, India)

Frontend Developer - Freelance

- **Created pixel-perfect, sleek designs** based on prototypes and wireframes provided in **Canva**, ensuring that the final product matched the design specifications precisely.
- Collaborated with a **cross-functional team of designers and developers** to ensure cohesive implementation of features and design elements.
- Worked with the team to **maintain code quality**, conducting code reviews and addressing issues to deliver a high-quality product.
- **Developed reusable components** that streamlined development across multiple sections of the project, improving efficiency and consistency.
- Ensured that all pages were **responsive and optimized** for mobile and desktop platforms, enhancing user experience with **Dynamic page routing**.

Skills

Languages : JavaScript (ES6+), TypeScript, HTML5, CSS3/SASS

Frameworks/Libraries : React.js, Next.js, Node, Tailwind CSS, Bootstrap, Material-UI, ChakraUI, ShadcnUI

Tools & Technologies : Git, Github, Postman, Insomnia, Postgres Database, Clerk

Education

Patliputra University

Bachelor of Science in Physics

2019 - 2022
